All subscriptions should run with the calendar year EDITORIAL AND PUBLICATION OFFICES: 79, Rua Sete de Setembro.

RIO DE JANEIRO, MAY 20th, 1889.

THE legislative sessions of the past week have been largely occupied with questions and explanations, the opposition appearing to be determined to keep the government on the defensive. In view of the strength of the opposition and the determination of the ministry to hold its position as long as possible, there can be but slight hope for constructive legislation this year. The present state of the customs and other public offices renders a reorganization urgently necessary, but commerce must wait. The annual reports of the several departments were presented on the 15th and 16th. From the general abstract published in another column it will be seen that the total appropriations for next year amount to 176,676,551\$490, while the revenue is estimated to produce 150,769,500\$, showing an apparent deficit of 25,907,051\$490. From this it would seem that all hopes of "balancing the budget" have been relinquished.

An important decision affecting commercial names and trademarks has just been rendered by the judge of the 8th criminal district of this city, Dr. Macedo Soares, which has more than local interest. Some time since suit was brought by the representative of the Singer Manufacturing Company against Messrs. Max. Nothmann & Co., merchants, for importing and selling sewing machines marked and called "Singer" machines, which were of German manufacture. Although the patents on the Singer machines had expired, it was claimed that the trademark and names used were the property of the manufacturers and could not be used by the defendants. After due consideration of the proofs and arguments offered, the judge decided that the accused are guilty of an illegal use of the commercial names and marks employed by the plaintiff company, and ordered that the representative of that firm named in the process be imprisoned and charged with the costs. At the same time the judge appealed the case to the Relação for confirmation of the sentence. A short time ago this same judge rendered a similar decision against a shoe dealer who was selling an article under the designation of "Calçado Clark," which had been imported into this maket for the express purpose of profiting by the reputation established by the old and well-known house of Clark & Co. It was objected that the manufacturer's name was "Clarke," instead of "Clark," but the judge held that the use of this name in the manner proved was contrary to law and was designed to delude unsuspecting people into the purchase of an article different from that so long advertised under the designation used by the plaintiffs. These decisions mark a very important change in the operation of law against people who seek to live upon the established reputation of others,

heaviest loser by these impositions, and it has not been until a comparatively recent date that the courts have recognized the substantial difference between the patents which were held and the factory names and trademarks employed. Hundreds of other manufacturers, however, have been made to suffer in exactly the same way, and it is a satisfaction to note that a way has at last been found to protect them. There are perhaps half a score of other popular sewing machines whose trade names and marks have been stolen by unscrupulous manufacturers and which are now sold in this city as genuine. Not only are the original manufacturers losing the sales, but they are suffering in reputation because of the cheap, inferior articles sold under their names. No just government ought to permit such a practice any more than it ought to permit open theft and counterfeiting. Every man's name and trademark should be held as sacred as his signature, and especially so when he has spent time, money, ability and well-directed industry to establish for them a good reputation. In the interests of commercial integrity and the security of personal property, it is to be hoped that this preliminary decision of Dr. Macedo Soares will be speedily confirme 1 by the Relação and the principle be thus firmly established that illicit trading on another man's name and reputation is not to be permitted.

#### SEAMEN'S MISSION FUND.

REPORT FOR THE YEAR ENDING DEC. 31, 1888.

There can be but little room for variety in the material of the Annual Report, as the work of the Mission continues for the most part the same from year to year. But, so far as your Committee can ascertain, it is by this steady insistance in the objects for which it exists that that work becomes better become and wore respected.

which it exists that that work becomes better known and more respected.

The Missioner, who pays some 30 or 40 visits a month to the various ships in port, is rarely refused permission to board. In fact, in case of many ships returning from time to time to Rio, an omission on his part to make the usual visit is at once remarked and commented upon, so familiar have his visits to the ships now become.

Mr. Hooper has carried on through the year his usual Sunday services afloat. At some of these, contingents of captains and men have come from six or eight different ships and met on board some central vessel

some of these, contingents of captains and men have come from six or eight different ships and met on board some central vessel for the common worship. On one occasion the congregation, so constituted, amounted to eighty persons. This spirit of combination among ships for the common bond of worship is a feature of great interest and deserves to be much commended and encouraged. Mr. Hooper visits not only English and American ships, but those also of Norwegian and Swedish nationality, where he always finds a very ready welcome.

The Mission Room has been opened daily for the use of sailors ashore, and the Sunday and week-day services have been for the most part well attended. During for the most part well attended. During the present great heat, however, it has been found impossible to get the men together for these purposes. The weekly evening "free and easy" has also from the same cause been completely neglected.

In September Mr. Hooper applied to the Committee for an increase of salary. After deliberation, the Committee, in considera-

Committee for an increase of salary. After deliberation, the Committee, in consideration of Mr. Hooper's circumstances and bis efficient services to the Mission, decided that the application was not an unreasonable one, and granted an increase of 50\$ per month, bringing his salary up to 200\$. This will explain the larger sum debited in his year's accounts to the "Missions". year's accounts to the "Missioner" salary

salary.

At the same meeting the subject of the proposed Mission ship was discussed at length, and appeared to be beset with many difficulties. The rival claims of the sailors length, and appeared to be beset with many difficulties. The rival claims of the sailors who remain afloat, whom the Mission ship would mainly affect, and of those who leave their vessels and stay ashore, to whose rescue the present Mission principally lends itself, the possibility of maintaining both branches of the work simultaneously, were duly weighed and considered, but no weighed and considered The Singer Co. has perhaps been by far the definite conclusion was arrived at; and the

whole question, which is one of great interest and no small difficulty, still remains to be faced and answered.

During the year Mr. J. H. Bellamy, an old friend of the Mission, on leaving for England kindly volunteered to do what he could to forward the interests of the Mission at home; and a letter recently received from him charts the beauty to the could to the could to the mission at home is and a letter recently received from him charts the beauty the leaves the country of the second to the country of the from him shews that he has already met

with some success.

The Committee desire once more to with some success.

The Committee desire once more to record their thanks to the South American Missionary Society in London and to Edward Gotto, Esq., The Logs, Hampstead, for their generous contributions, and to all other subscribers for their continued support of the Mission. Thanks are also due to other subscribers for their continued support of the Mission. Thanks are also due to those friends who have kindly forwarded gifts of literature or clothing for the use of the Mission; and such gifts, especially those of old clothes, would again be very thankfully received.

Nor can they forget their continued in-

Mor can they forget their continued in-debtedness to the Editor of the Rio News for his gratuitous aid in printing the Re-ports and other matter connected with the Mission.

THE BUDGET FOR 1890.

The estimates submitted by the government to the Chamber of Deputies on the 15th are as

Department o	f Empire	9,226,528\$097
do	Justice	7,816,574 808
do	For. Affairs	
do do	Marine War	11,495,004 305 14,994,492 691
do do	Agriculture	44,779,248 278
(II)	Finance	62,102,165 851
Table A .		151,219,720\$696
		5,489,499 326
do C		19,748,208 300
uo 17		219,123 168
	Total	

The revenue is estimated at 150,769,500\$, which would leave an apparent deficit of 25,907,051\$490. The budgets as passed for 1889 were

do do do	Justice	9,228,321\$097 7,680,612 823 771,706 666 11,313,619 125
do do	Agriculture	15,031,706 173 46,929,076 686 62,193,399 727
do B		153,148,442\$297 327,336 014 19,939,629 813
	T-1.1	

Total..... 173,415,408\$124
The estimates for 1889 were 15,000,000\$ less The estimates for 1889 were 15,000,000\$ less than the vote; should the same occur this year the deficit would exceed 40,000,000\$. Revenue in 1889 is said however to have exceeded estimates. Of the items contained in Table A for next year 5,000,000\$ items contained in Table A for next year 5,000,000\$ is the credit granted the department of empire for urgent expenses with drouth and epidemics.

### LEGISLATIVE NOTES

May 14.—In the Senate Barão de Santa Helena took his seat. The premier explained ministerial changes and Visconde de Ouro Preto his motion to adjourn pending these explanations. The premier replied and Senator Silveira da Motta also spoke. The discussion was adjourned. In the Chamber various requests for information were submitted, Deputy Affonso Penna presented an interpellation for information as to the recent loan of the province of Minas Geraes, to which the prime minister is to reply. The rest of the session was occupied in eulogizing the late Barão de Cotegipe and deceased members of the Chamber.

calogizing the late Barão de Cotegipe and deceased members of the Chamber.

May 15.—In the Senate a communication from the department of empire offering to place at the disposition of Senator Ignacio Martins all the documents referring to the matters as to which he moved for information, at the department, seemed to incease Visconde de Ouro Preto who could not believe his ears upon hearing it read, and considered it should not be received. There was no quorum, but the matter will lead to great discussion later on. In the Chamber upon motion of Deputy hat the matter will lead to great discussion later on. In the Chamber upon motion of Deputy Affonso Celso a committee of five was appointed to examine all the Loyo contracts, general and provincial. The ministers of finance, empire, war and marine read their relations and the premier explained ministerial changes. Deputy Gomes de Castro replied, and the premier again spoke.

May 16.—In the Senate the dispatch from the minister of empire came up and Senators Ignacio Martins and Visconde de Ouro Preto were very severe in their criticisms. The premier disclaimed for himself and his colleague any intention of wounding senatorial sensibilities and the matter was concluded by filing the document. Sr. Ignacio Martins' motion for information then came up and the premier spoke. In the Chamber the minister of foreign affairs and of agriculture pro tem read list relatiories. The election of committees was proceeded with, but suspended for want of a quorum.

May 17.—In the Senate Sr. Ignacio Martins' spoke in defense of his request for information.

proceeded with, but suspended for want of a quorum.

May 17.—In the Senate Sr. Ignacio Martins spoke in defense of his request for information; but does not appear to have produced any new arguments. The premier declared that he could not reply to-morrow, but would upon a proper opportunity. Senator Avila and the minister of marine spoke on a credit granted the latter's department. In the Chamber an interesting vote was taken on the motion of Deputy Penido for information as to the Emperor's health, which was rejected by 94 to 4, the latter figure representing the republican strength in the Chamber. The election of committees was completed, and Deputies Spinola, Andrade Figueira, Ratisbona and Affonso Celos spoke on the project of the law declaring May 13th a national holiday.

May 16.—In the Senate a moniton of Sr. Dantas for information as to relied measures in the province of Bahla was passed. The debate on Senator Ignacio Martin's motion was adjourned for 48 hours, in order to secure the presence of the premier. In the Chamber there was no quorum.

## PROVINCIAL NOTES

-The epidemic in Campinas is declining.

-The establishment of a cotton factory at Faxina, São Paulo, is under consideration.

-The relief organizations have been distributing food to a little over 4,000 destitute individuals in Campinas.

The average temperature at Tatuhy, São Paulo, in April was 68.9° Fahr., the maximum being 92.5° and the minimum 46.4°. The total rainfall measured only 30 millimetres.

-The recent president of Pará seems to have vetoed everything the provincial assembly did, So many vetoes proves the unfitness of one or the other for the office held.

-The April receipts of the São Paulo postoffice were 12.8508770 for the city and 36,1938900 for the rest of the province, against 11,6418320 and 31,2778430 respectively for the same month of last year.

-A Minas exchange says that a credit of 45,-—A Minas exchange says that a create of 43-512\$870 has been opened in the sub-treasury of that province to cover the expenses of carrying on the S. Juão d'El-Rei immigrants' nucleus, during the current half year.

—There were 1,674 immigrant arrivals at the São Paulo hospedaria in April, of which 485 came spontaneously, 745 for account of the general government, and 444 for account of the Sociedade Promotora.

-One of the most prominent capitalists of Santos, Sr. Mathias Costa, was shot and killed by two brothers named Lima on the 8th inst. The crime grew out of a quarrel over some land which the Lima brothers claimed.

—The June pauta for the imposition of export duties in the province of Minas Geraes will be:

Coffee ... kilo 586 reis 23.5 reis Tobacco, rolls ... 430 ,, 13 ,, do, manufac ... 500 ,, 15 ,,

The Rio Grande provincial assembly has passed a bill granting a 20-years' privilege to A. Jouvin for lighting the cities and villages of that province by electricity. He is allowed 2 years for the cities and 4 years for the villages, within which to carry the scheme into execution.

the scheme into execution.

—The following information has been furnished us in regard to the recent epidemic in Santos, which began on January 14th. From that date to the end of the month 87 deaths are recorded. In February there were 155, in March 516, in April 312, and in the first half of May 43—a total of 1,113 deaths. The abandonment of the city by many renders it difficult to estimate its population during the epidemic, but it probably did not exceed 12,000.

## RAILROAD NOTES

-The April receipts of the Carangola line amounted to 52,482\$840. The expenses are not published.

-Telegrams published yesterday from São Paulo state that negotiations for the sale of the Sorocabana line have been nearly completed.

-On the 7th the minister of agriculture recom-mends the fiscal engineer of the Rio de Janeiro and Northern railway to obtain from the company the reasons for the delay in completing the line.

-A local journal says a meeting of the S. Carlos do Pluhal (Rio Claro, S. Paulo) railway is called for the 30th to consider the proposal of an English syndicate to purchase the road for 8,000,000\$, which, says the journal, would give 320\$ for each

-On the 14th the department of agriculture advertised for tenders for the construction of a railway from Aracajú to Simão Dias, with a branch to Capella, in the province of Sergipe. The conditions are those authorized under the law of November 24th, 1888.

-By a circular dated on the 6th and published —by a circular dated on the 6th and published in the Diano Official of the 17th the minister of agriculture advises the directors of all government railways that the reduction of freight on cereals ordered to be made by the D. Petro II milway will be also made on all government lines.

will be also made on all government lines.

—The following is the translation of the dispatch from the minister of agriculture to the Brazilian minister in London, dated on the 12th April, and published in the District Official on the 17th inst.; Confirming my telegram, I inform V. Ex. for due effects, that the imperial government nominated as its arbitrators, under the last part of clause 20 of the agreement of November 6th, 1873, approved by Decree No. 5-252 of January 7th, 1874, the Councillor of State Domingos de Andrade Figueira and the Engineer José Ewbank da Camara, director of the D. Pelro II rallway, so that the drawing of lots for the installation of the arbitration court could be proceeded with, which court will definitely resolve as to the meaning of clauses 25 and 33 of the concession granted by Decree No. 1,750 of April 26th, 1856, for the construction of the rallway from Santos to Jundiahy (S. Paulo railway company), treated of in the dispatch dated May 4th of last year from the department under my charge to the legation. And, considering that to this formality, subject to justifiable delay, is not applicable the period of tiree months fixed in clause 25 of the said agreement of 1873, which refers expressly to the non-response of one of the parties to a dispatch of the other, or which should cannit to nominate its arbitrator, hypotheses which are not verified, because, in senson, the government accepted the arbitration and made the nomination provided, Y. Ex. acted correctly in declaring to the company that the question could not be considered settled under the said clause 25, as was pretended and was explained to meb by Y. Ex.'s telegram of the 9th inst. and yesterday received.

—The clause of Art. 25 in the contract above referred to, reads as follows: —"In case of one of the parties to a contract of the parties to a company that the question could not be considered settled under the said clause 25, as was pretended and was explained to meb y Y. Ex.'s acted in clause of one of the parties to a -The following is the translation of the dis-

-The clause of Art. 25 in the contract above —The clause of Art. 25 in the contract above referred to, reads as follows: — "In case of one party not responding to the notification (notice) of the other, or failing to nominate his arbitrator within the period of three months, the question will be considered as settled according to the demand of the party which offered to establish the arbitration court, and to whom the other failed to satisfy the demand for a formation of the same court."

#### RIVER PLATE ITEMS

An epidemic of small-pox has broken out at Bahia Blanca, Argentina.

-A telegram published in the Paiz of the 16th states that a revolution has broken out in Paraguay.

-The new general postoffice at Buenos Aires is to be built on reclaimed land on the river front and its cost is estimated at \$5,000,000.

-The corner-stone of the new Municipal Theatre. which is to be built by Ferrari, will be formally laid in Buenos Aires on the 25th inst.

-The Argentine government has reduced the quarantine against Rio de Janeiro to two days, and has removed it from all other Brazilian ports.

—The Uruguayan government has recently concluded a contract for the introduction of 300,000 immigrants. The Argentine Congress ought to pass a vote of thanks.

-The River Plate Times, of Montevideo, hears that Messrs. S. B. Hale & Co. have purchased a concession for building 100 leagues of railway on the Brazilian frontier and the colonization of the lands adjoining.

A frozen meat shipper of the Argentine Republic recently received \$22,741 as the amount of bounty due him for exporting 3,790,268 kilogrammes of frozen meat to Europe from April to December of last year.

The Heraldo of Taquarembo says that the bridge over the Quarahim, connecting the "Itaqui a Quarahim" railway with the Uruguayan hank, will not be built, as the Brazilian government insists that the railway company shall destroy it in case of war.

-The late General Maximo, Santos was buried at Montevideo on the 15th. It is interesting to note that the burial was effected at the cost of the state, although Santos was an exile at the day of bis death, and although he had robbed that wretched country of millions.

### LOCAL NOTES

-Another runaway is reported and as usual the name of the absconding party is maintained a profound secret.

-The city's gas bill for April amounted to 64,-872\$417, for streets and squares and 503\$736 for he public gardens.

-The Western & Brazilian Telegraph Co's, proposal to connect Fernando Noronha with Natal, Rio Grande do Norte, has been referred to the department of justice by that of empire.

On the 16th the government gave a categorical denial to the assertions made in some of the opposition press that the Treasury had granted funds to produce enthusiasm on the 13th, abolition day.

Deputy Lourence de Albuquerque says

"Speech is silver; silence is gold." It appears
evident that the deputies are the worst kind of bimetalists. They think silver much preferable to
gold.

-The minister of war has presented a bill to the minister of agriculture for 4,212\$026 for 17 horses and their harness, and 1,294\$746 for medicines, all of which have been furnished the Bicallot, 40 day, water supply commission.

-The Associação Commercial is coming to the —the Associação Commercial is coming to the front bravely. A lew days since it addressed a letter to the Conde de Tocantins congratulating him on his titular promotion. Perhaps the Associação will yet do something for the commerce of Rio de Janeiro.

-- The navy department has ordered the London reastry agency to buy 5 kilometres of electric cable for the use of the torpedo factory. It will probably be used to tie to the tails of torpedoes and avoid unnecessary expense when these founder or become derelict,

—A curious way of advertising an embryonic artist. A local paper a few days ago says it had on view in its salon the portrait of a larly done with tooth-pick points on the bottom of a plate by an amateur "with is entirely unacquainted with the rules and precedents of art."

-It is a real pleasure for us to register an act of —It is a real pleasure for us to register an act of common sense on the part of the municipal chamber. On the 16th Sr. Pedro Soares Caldeira was appointed fiscal of the mangue, and it is hoped he will be furnished with sufficient troops to put a stop to the destruction of the plants.

-The minister of agriculture has approved the appointment of Sr. João Raymundo Duarte, the chief of the section of draftsmen of the D. Pedro II failway, to visit Europe for four months to investigate electric illumination. The Paris exposition is not mentioned as forming any part of his commission.

-On the 15th the minister of empire informs the director of the Polytechnic school that he can the director of the Polytechnic school that he can not permit an appeal to the council of state against his purely administrative act in ordering new examinations for professorships at the school. The faculty, however, refuses to provide for new examinations, and there the matter rests.

-The cash receipts of the state telegraph lines —The cash receipts of the state telegraph lines in January amounted to 68,055\$997. The official telegrams charged to their respective departments in the same month amounted to 61,191\$400. Would it not be good policy to cut down the official telegrams a little and thus afford more facilities to private individuals who pay for the work done?

-If any member of the Chamber of Deputies has a sense of the ridiculous let him read to the mas a sense of the reductions let him read to the chosen of the mation a speech or two of the min-ister of empire, made when he was in opposition. The wag might preface by saying that his taleat not equalling that of the minister, he was desirous of taking to himself all the ideas expressed in the remarks of the noble minister.

-There is a man in this country, a single man-—There is a man in this country, a single man—we do not mean an unmarried creature—who combines in his person the following peculiarities: he is attorney for the Trensury, a bachelor in laws, a poet, a story-teller, a planist, a novelist, a dramatist, a popular orator and a journalist! It is hardly necessary to add that he is a product of the province of S. Paulo—and has written an opera. Nothing short of an earthquake is capable of getting away with this combination of talent.

-The 1st cavalry regiment served as the imperial —The 1st cavalry regiment served as the imperial escort during the 13th. The colonel-commandant has just issued an order of the day in which he compliments his subordinates on their cleanly appearance, drill, etc. The colonel-commandant of the 1st cavalry regiment is easily satisfied; the men's caps alone would have driven a drill-sergeant stark-staring mad, and as for dressing; it was completely overlooked. We mean dressing the ranks—the officers were dressed to kill, it each decoration meant a dead enemy.

-The government official is simply unequalled. —The government official is simply unequalled. When he wishes to avoid a contract, or an agreement, he invariably does it, and finds some sort of a justification for it, too. A flagrant case of this is the tax imposed upon the offices of the Western and Brazilian Telegraph Co. By the contract this company is expressly exempted from all taxes in this empire, whether general, provincial or municipal, but this clear agreement has been no obstacle to the taxegatherer. For some time the managers and agents of the company have been called upon to pay a tax for "exercising a profession," and the Treasury has just now decided it correct on an appeal from the company. Those who make contracts with the Brazilian government should make a note of this.

### FINANCIAL NOTES

-The April receipts of the Rio Grande custom house amounted to 298,308\$037.

-The Confiança Industrial mill has called for 20\$ per share on the 2nd series, which was payable on the 18th—20th inst.

-The Caixa de Credito Commercial has made another call for 20\$ per share, to complete the capital, payable on the 1st -5th June.

-The April receipts of the Victoria, Espirite Santo, custom house amounted to 23,947\$193, against 19,815\$240 in the same month of last year,

-The subscribers for shares in the Banco Pro-vincial de Minas Geraes are invited to meet on the 27th inst. at Ouro Preto with the purpose of installing the bank.

-The Gazeta de Noticias of the 12th recommends to the attention of Brazilian finance great French lottery scheme. It certainly is in-genious, whatever the morality may be.

-The chairman of the London and Brazilian —The chairman of the London and Brazilian Bank stated at the meeting of the shareholders that the necessary increase of staff in Brazil and the payment of salaries in Brazilian currency, made a difference of ∠6,500 to the shareholders in 1888.

-The Moniteur des Interêts Matériels of April 14th states that the eash in specie (encarse metalfigure) of the 19 principal Brazilian banks was reduced to 40,500,000 francs. Perhaps our colleague will let us here in Rio know where he discovered that Brazilian banks kept their cash balances in specie?

-The Rio Grande correspondent of the Joinal — The Kin Grande correspondent of the Jound of Commercio says that the shares of the new frozen ment company have nearly all been taken in the province. It has been proposed in the provincial assembly to pay a premium of £500 per head, up to 50,000 head, for the eartle exported. Until the bar is improved, the success of the enterprise is very hypothetical.

wery bypothetical.

The bids for the Rio de Janeiro municipal loan were opened on the 16th. Sr. José Alkaim bid 76½ per cent, interest 4 and sinking fund 1 per cent; the Banco Parisiense. by Messrs, Duvivier & Co., bid 77 per cent, interest 4 and sinking fund 2 per cent; and Viscende de Figueiredo, by his autorneys, offered 79 per cent, interest 4 and sinking fund 1 per cent. The bids were referred to a special committee.

#### MARKET REPORT

Rio de Janeiro, 20th May, 1889.

#### Exports.

Exports.

Coffee,—Sales reported during the week amounted to about 85,000 bags, and brokers have continued to quote the market steady, with no change in quotations. Receipts have been irregular, but the week is smaller again; \$1,366 begs, against \$3,500 bags for the preceding week, and \$6,164 bags for the week before. Shipments have been in excess of receipts and stocks were this assuming only about 300,000 bags of which a considerable proportion must be availing shipment. The nursten may be considered about where it was a week ago; there appears to be no excessive anxiety on the part of either exportes or dealers to do business, and the steady reduction of stock will probably keep the latter firm.

Shipments since sure hast report have been;

37,347 bogs for the United States
41,541 ... Entrope
4,389 ... Cape of Good Hope
5,674 ... Elsewhere 88,852 hags.

For the some time the daily foreign clearances at the ustom house amount to 23,074 bogs for the United States 13,431 ...

Europe Cape of Good Hope Elsewhere 36,743 bogs. The vessels cleared with coffee are:

18 Loudon , Tycho Brahe . 19,949

Electrics :

May 15 River Plate Arg str Colombia . 2,638

16 ds Braz str Arithids . 2,286

The market was reported steady this moraing at unchanged quotations viz:

Imports.
The receipts of Flour and Lauf have been very large since our last report, but of other articles are small. The business doing has not been up to an average. In Flour the two steamers moticed in our last, and three cargoes by sating vessels, of which two are of Baltimose brands shipped from New York, have supplied dealers who were more or less compronised with their customers. The friction in the analytic properties are steady again, but the quantity of flour reported on the way for our market is said to be very large and the American shippers seem to have become demondated by the fact that flour was paying a a profit here. There is nothing new in pine. Lard has become very flat under the darge receipts noted, but as the native crop is not likely to be excessive, there seems some possibility that under moderate receipts the market will gradually improve for foreign land should not sell under the more inferior native product. River Plate Indian Com is rather higher and Hay also. Colifsh is said to be demondized; the deliveries are insignificant and the stock largel-consists of all Gaspe and St. John fish, for which the demands
is next to nothing, and dealers do not expect any immediate
improvement
Flour.—Receipts since our last report have been,
